

B2B:Student

Instant access to the very latest information on every child held by their school

With access to the latest information your team can identify children at risk earlier and monitor and adjust early intervention strategies. Providing a transfer of data directly from a schools MIS authority staff and multi-agency partners have access to the very latest, accurate information including attendance, absence and exclusion.

B2B:Student transfers data electronically up to six scheduled times a day and offers a wider range of information compared to commonly used CTF files. It ensures that conflicting data is not processed automatically, keeping the authority in control of what is updated and what is discarded.

Data is securely transferred and does not need to be re-entered saving valuable time and reducing the risk of error.

Key Benefits

- **Share information:** transfer data securely between authorities and schools MIS.
- **Extend teamwork:** integrated working between schools, authorities and agencies is facilitated by making sure current and timely data is more accessible.
- **Target intervention:** providing a single view of each child you are able to identify those at risk.
- **Reduce costs:** increases efficiency and productivity by eliminating the need for multiple databases.
